Game Oilcraft is the best thing that happened to the PC gaming era. OilCraft lets you build, play, and trade oil rigs and refineries. There are a ton of features including: - Oil Rig Construction - Dynamic Map Zoom - Auction House Trading - Multiple Hands - Flexible Slots - Customized Control Methods. What is OilCraft? OilCraft is an all new advanced Free-2-play town builder, with a refined resource management system. The game has tons of amazing features, and a ton of them have been invented and implemented to make the game a unique experience. Steam Trading: OilCraft does Steam Trading seamlessly. You can interact and cooperate with others who have placed items on your Steam Trading board. You can also offer items to others for Steam Trading. You can exchange items with them, just as you would with a friend in real life. OilCraft has a fully functional Steam Trading system. You will be able to see new items as they hit your Steam Trading board. No "market maker" will ever be necessary. Steam Trading is implemented through Steam's Web API, meaning you can see everything about Steam Trading that Steam allows you to see through the Trading Interface. Watch Steel Battalion 2: Heavy Armor Devine Player Builds online! This is a PvP game where the players take control of the hero's and build up their own defenses and resource gathering capabilities. A series of 9 levels are included that can be played either solo or online in a private or public match. No graphics menu is present to help players get around the game. A "Tutorial Level" is included to get players started. Tutorial Level: This tutorial level is for players that have never played Steel Battalion 2 before. It is only one level long, and the goal is to train new players on what to expect from the game, how to play and how to avoid wasting resources. With the tutorial level players are also introduced to the start up mission briefing which would be included in the game at all times. After passing the tutorial level players would have access to the following levels included in the game. We have worked hard to ensure that all levels are extremely challenging, but are a good introduction to the strategy of the game, as well as the short-lived physical aspect of the game.
