I have this as a source: PdfPTable table = new PdfPTable(3); table.setTotalWidth(170.0f); table.setLockedWidth(true); table.setWidthPercentage(100.0f); PdfPCell cell = new PdfPCell(new Phrase("Example Cell")); cell.setColspan(3); // Dividing the table into two PdfPCell borderLeft = new PdfPCell(); borderLeft.setBorderColor(new BaseColor(0,0,255)); borderLeft.setBorderWidthLeft(1.5f); borderLeft.setVerticalAlignment(Element.ALIGN\_TOP); borderLeft.setPaddingBottom(3.5f); borderLeft.setPaddingTop(1.5f); PdfPCell borderRight = new PdfPCell(); borderRight.setBorderColor(new BaseColor(0,0,255)); borderRight.setBorderWidthRight(1.5f); borderRight.setVerticalAlignment(Element.ALIGN\_TOP); borderRight.setPaddingBottom(3.5f); borderRight.setPaddingTop(1.5f); table.addCell(borderLeft); table.addCell(cell); table.addCell(borderRight); cell.setColspan(3); cell.setHorizontalAlignment(Element.ALIGN\_RIGHT); If I do this: cell.setColspan(3); cell.setHorizontalAlignment(Element.ALIGN\_RIGHT); I get a table with the same size of the other page. But I want that both pages have the same size of the table. Here is the result: A: You need to set both left and right page width PdfPTable table = new PdfPTable(3);

The fluorescence of osteosarcoma cells induced by 5-aminolevulinic acid (ALA) has been investigated in vivo in rabbit VX2 tumour model. The fluorescence was detected in the bone and the connective tissue around the tumour. The fluorescence of the tumour cells was almost quenched in the presence of indocyanine green. After ALA induced fluorescence, when all the tumour cells were destroyed, the fluorescence disappeared from the bone and the connective tissue around the tumour. The fluorescence did not reappear when the fluorescence was renewed by ALA induced fluorescence. These results suggested that ALA induced fluorescence of osteosarcoma cells is not destroyed by fluorescence quenching molecules in the surrounding tissue.Ruth, There is a discrepancy between our total invoice and the sum you are returning to us. The total invoice comes to \$3,073,047.75 and your return total is \$2,926,145.55. Can you tell me where this difference is coming from? Thanks, Eric Boyt Gas Logistics (713) 624-0290 (713) 624-0441 (fax) -----Original Message----- From: Boyt, Eric Sent: Monday, October 29, 2001 8:36 AM To: Haynes, Randy; Spraggins, Gary Subject: RE: 6-30 Recission My initial estimate for the amount owed is \$3,073,047.75. The payee on this amount is Eric Boyt (\$140,734.45), ENA (\$2,802,812.55), 2d92ce491b
