I have a php file '); ?> And this is my javascript: var x = eval(); alert(x); Here is the result: alert(x); hello world It is all correct But when I remove php file to make this : var x = eval(); alert(x); It doesn't work How to solve this? A: Use this, if you dont want to use php and concatenation: var x = alert(x); instead of: var x = eval(); Q: creating a vector layer in openlayers 4 I am trying to build a vector layer in OpenLayers 4 with a constructor. I am using a class for the shapefile that I want to use as the source: const vectorSource = new ol.source.Vector({ format: new ol.format.GeoJSON(), projection: projection, url: " + 'blackhawks.shp', style: style }); I am now trying to add this class to the ol.source.Vector constructor to create the layer: const bramble = new ol.layer.Vector({ source: vectorSource, style: style }); but the layer is not rendering
