PackPal Barcode Generator is a lightweight software application whose purpose is to help you create different types of barcodes, namely C39, EAN-13, EAN-8, UPC-A, and UPC-E. Interacting with the GUI The program sports a clean and simple design that allows you to decode the dedicated parameters in a short amount of time. A help manual

is comprised in the package and includes useful details about the configuration process. You may appeal to it in case you cannot manage to create barcodes on your own. Design personalized barcodes PackPal Barcode Generator gives you the possibility to create a new barcode by providing information about the height and width of the barcode in inches. In addition, you are allowed to enter a user-defined

text message, input the target barcode message, as well as insert EAN-13 additional details. The generated barcode can be previewed directly in the main window. What's more, you can print the barcode, pick the preferred barcode type, rotate the barcode to different angles, and configure printer settings (e.g. portrait or landscape orientation, paper size, printer). The application lets you alter the text in terms

of font, font style, size, and color, tweak page parameters (for example, you may alter the top, left, and right blank space), change the color of the barcode lines, as well as copy the barcode to the clipboard so you can quickly paste it into other third-party utilities. Tests have pointed out that PackPal Barcode Generator carries out a task quickly and without errors. It remains light on system resources so the overall

performance of the computer is not affected. The tool offers very good output results.
