What's New In Convexsoft Animated GIF Converter?

Advertisements Convexsoft Animated GIF Converter is a simple-to-use application which allows you to encode GIF animations to AVI, SWF, FLV or image sequence. The interface of the program is plain and simple. You can import a GIF animation by using the file browser only, since the "drag and drop" method

is not supported. Batch processing is not possible. So, all you have to do is specify the output format, destination and filename, in order to proceed with the conversion job. But you can also set the frame delay and color, bit rate, frame rate and image format (e.g. BMP, JPG, GIF), as well as preview animations in a built-in media player. Furthermore, you can enable Convexsoft Animated GIF Converter to overwrite existing files and to open the

output directory after conversion, resize and split clips, apply effects (e.g. brightness, contrast, blur, sharpen), and more. The simplistic app uses a low-to-moderate amount of system resources, includes a comprehensive help file for novices, quickly finishes a task and preserves a good image quality. We haven't encountered any issues during our tests and strongly recommend Convexsoft Animated GIF Converter to all

users, whether we're talking about novices or experienced individuals. Product Reviews
