What's New In?

No additional functionality (eg. can't change any settings) Ejects & ejects It eases in setup Minimal user interface Allows you to eject a CD/DVD with just one click It is a bit buggy, but still works perfectly In order to get the best results from a CD/DVD drive, you need to perform a few steps when you install a new disk into the drive. After you mount a disk, the software will prompt you to configure the drive settings. You will have to enter the correct label on the disk in case of DVD. Setup is fairly simple. In order to make sure that it is fully compatible with your drive, it is very important that you choose a label that has been used on your disc before. No matter what label you choose, you will be prompted to set your drive to Auto Read Only mode, Master Mode, and Label Mode. It might not be easy to choose the desired mode, but it is a very important step, so you can be sure that the next step will work flawlessly. Easy Ejector is a very simple, compact and powerful disc ejecting tool for Windows. No more double clicking and waiting for a long time. It works like a charm! It makes you complete control over your CD/DVD drive. No more loading the driver and unmount the CD/DVD first! CD / DVD Ejector is an easy to use CD and DVD eject tool which allows you to eject the disc from your computer.
