Go to : \fonts\apr5x\_autocad.ttf and copy the files "autocad.ttf" and "autocadautocad.ttf" from "C:\Program Files (x86)\Adobe\Adobe AutoCAD\Windows\fonts" Create a folder "Adobe" and paste the.ttf files in the folder. Put the file of the keygen you copied in the Adobe folder. Enjoy the font! A: I have been having the same issue. This character, when copied to the clipboard, can be pasted into a text editor and the name of the font containing the character will be displayed. You can then open the font file and modify the name of the character that it contains." The weekend incident put two things in motion: Board members were forced to cancel their Friday, Jan. 20, vote on R-3, and they
