AutoCAD 2020 is the latest version of the AutoCAD software. Among other changes, AutoCAD 2020 includes GPU rendering, which provides greater speed and fidelity in rendering images, animations, and other graphics in the Autodesk Alias package of applications such as 3ds Max and Maya. Download and install the latest version of AutoCAD by following the procedure described in this article. Download the software from the Autodesk website. The install package is about 300MB in size. Before beginning, you need to accept the End User License Agreement (EULA) that you will be presented with when launching the installer. AutoCAD 2020 is also available as a free and Pro version of the application. You must agree to the EULA of the free version before you can download and use the software. If you wish to use the Pro version of the software, you need to purchase a license for it from Autodesk or one of its partners. Microsoft.NET Framework 4.0 or later is required to run the software. The web version is available as a free app through the Autodesk website. You need to be a registered user of the website to download and use the app. However, you are able to access all the features of the desktop and mobile version of the software. AutoCAD 2020 includes the latest version of drawing and modeling commands. It also includes a new "App Center" application, which facilitates collaboration among users. AutoCAD 2020 can run on computers with Windows 7 or later operating systems. The subpoenas were issued to 11 current or former regents — members of the board of regents appointed by the university president — “in connection with a pending grand jury investigation,” said the person, who asked not to be identified because the investigation was not public. The person could not say whether the subpoenas involved actions by the regents as a whole or by any of the individual members. The regents were served on Thursday by the U.S. attorney's office in Los Angeles, the person said. The university declined to comment on the matter. The subpoenas relate to an ongoing federal investigation of the university's leaders and finances, according to sources familiar with the investigation. The investigation is being led by the U.S. attorney for the Central District of California. Since 2016, the regents' five-member audit committee has been led by former federal prosecutor and Los Angeles attorney, Steven Bailey. Bailey, in an interview with the San Francisco Chronicle, declined to comment on the investigation. The subpoena to regents comes after the university's president, Janet Napolitano, announced in a statement that an external panel will be created to review its external relationships. Napolitano's statement followed several years of revelations a1d647c40b
