Advanced UV Normalizer is a tool for Autodesk 3ds Max for normalizing Texel density in various ... Download Advanced UV Normalizer is a tool for Autodesk 3ds Max for normalizing the density of Texel in various image areas, including shading objects in different materials. The program allows you to accurately control the density of Texel in UV coordinates, which allows you to make objects in different materials more realistic. By doing this, you can achieve greater detail, even if the objects used to look somehow strange. In the first place, this applies to UV maps.
