## **What's new:**

- **Boosts** - FIFA 22 introduces Boosts, ways to improve players in your FIFA Ultimate Team. You can use a more refined Skills UI with the “Preview All Skills” button. In FIFA Ultimate Team, you can improve your players by collecting gems through FUT Drafts, spend coins on player packs or buy players outright, and use FUT Points, which are earned through gameplay. You can also use your coin to upgrade your training facilities.
- **Online Rivals** - EA SPORTS has made every XI battle and goal of the “Witchery Drive” by Bruno Mars available to you. Once you turn on this feature, you will be presented with the option to play the fantasy football game against other FIFA 22 testers. You can then select different settings like field size, coin throw and more to make every UEFA Champions League game you play either completely random or against your online opponent.
- **Ultimate Boosts** - The Ultimate Boosts feature adds a new layer of depth and realism to FIFA Ultimate Team by allowing you to boost one element of your FIFA Ultimate Team squad. For example, you could boost a match condition like stamina, set up, or close difference (crossing or defensive), improving many aspects of your game. Boosts also have a higher chance of being generated, depending on your gameplay.
- **Player Transfer System** - The player transfer system has been improved in FIFA Ultimate Team by introducing the ability to bid on players by asking your fellow fans to vote for a club you might be interested in. The more you bid, the more of a chance you have of landing that player.
- **Card Collection** - Everyone has their own collection of golden balls. Players can now only be traded if they are sent to another FIFA 22 tester’s collection. Once you donate a golden ball to another FIFA 22 tester on your Friends List, you will also receive a small number of FIFA points depending on the level of the player you donated to them.
