Be it as goalkeeper or striker, the new 'HyperMotion Technology' in FIFA 22 perfectly captures the player's movements on the pitch so you can relive the action while playing. By tapping, swiping or dragging your right mouse button, you can guide your players on the pitch, including goalkeeper, fullbacks, midfielders, forwards and more. A new two-player mode allows you to compete for a single possession of the ball. In two-on-two mode, try to score a goal with your team-mate or defend your own goal to win the possession. In training mode, you can play with the CPU or other teammates, perfecting your skills to use the tool. For more information on "HyperMotion Technology" and other new features, watch the FIFA 22 reveal video. Player development The Player Development features will also return to FIFA 22. With the new "Training Hub," you can now choose your skill development mode: FIFA Training, FUT Academy, FUT 18, FUT Master League, or the newly introduced FUT Curves. Also included is FUT Draft, which allows you to build your own custom team. Other new features New Managers Mode A new Managers Mode allows you to play matches or go through a full season with a single team and manage up to 40 players from the Bench. New Teammate Interactions New teammate interactions offer players more control over their teammates, including the option to create an equipment line for up to three teammates (including the CPU). Touchscreen Controls All touchscreen controls (including touchscreen menus) have been redesigned for easier use. Play on the big screen When connected to the PlayStation 4 Pro and Xbox One X (see the official list of system requirements for more), FIFA 22 is the first console game that can be played in UHD at a full 60 frames per second (fps). Play all-new Episodes Each new episode will have three scenarios: Attack, Defence or Keep. Players can play each scenario against the CPU or against one another. Players also can use Episodes as a ladder for their Training Hub, collecting star points for best results. New Online Matchmaking FIFA 22 adds a new online matchmaking feature that allows you to play against friends or random opponents. The gameplay is set to be based on Season Ticket play

Fifa 22 Features Key:

- Live Through the Match-- Breathe life into the most sophisticated transfer market the world has ever known. See the news items flow, the cross-hairs in a goal kick zoom in, reactions and emotions scale. Take over your team in stunning VR, with the world's best football FIFA players- and you get to direct the action.
- Call the Shots
- Compete on a Grand Stage-- FIFA 22's biggest stages feature the largest arenas in the world and the most photorealistic, cutting-edge stadiums. The ball will react differently on these vast, immersive playing surfaces, with new physics that respond faster to touches and passes. As you pass, the ball dissipates energy in a new, revolutionary way, affecting dribbling, bouncing, and spin.

It's EA's most popular football game series ever, first released in September 1993. The game was initially developed by EA Canada's team of ex-Interplay programmers, but was then moved to EA Sports' EA Tiburon team in California. Back then it was the most realistic football game ever, with gameplay that's all about speed, control and a fluid, fast-paced action, and a physics engine that made players feel like they were playing with real-life players. It also had an epic day-and-night system for creating the sense of the season, and lighting effects that reflected the appearance of the sun, moon, and the dust, making the game even more realistic. It was the game of that golden era of EA Sports, which over the next few years would set new games standards, with its Origins sports series' first entry, NBA Live's breakthrough debut in 1997, and a truly outstanding, landmark game in

Madden NFL '98. FIFA has had other enhancements and updates over the years, including the introduction of next-generation animation systems in 2002, better stadiums and more accurate crowd & commentary audio, and a game engine overhaul in the form of the game engine boost in FIFA 06. FIFA 07 and FIFA 10 were the first FIFA titles to feature the iconic Frostbite™ rendering engine, which now powers more than 130 top-tier games released annually. More recently, the ever-popular Ultimate Team and Legends modes, as well as a number of other new features and game modes added to FIFA Ultimate Team and the new season of FIFA innovation under the theme of 'FIFA Forward' have helped to keep the series fresh and exciting. With the new Legacy feature, you can create a club from scratch or select a club from one of the many leagues around the world. Then you'll be able to start customising your club with your own logo, kits and stadium while you choose from pre-made player contracts or compete in the Ultimate Draft mode to get the right people to your club. - Stadium Builder and Kits – Enjoy an incredibly intuitive and comprehensive stadium builder that lets you design everything from your entrance to the pitch to your supporters, all while you create more teams, stadiums, kits and much, much more. With the new Kit Designer, you can re-engineer the kit for your club to make the opposition look like the enemy, and with the brand new Kits List, your team will always have the right kit to play the way you want. - AI Improvements – Experience a new next-gen player AI that will provide a level of self-awareness and intelligence to your team that only football could have produced. - Player Model Improvements – Enjoy even more life-like, realistic looking players that react naturally to the ball, influence the match and create unpredictable moments on the pitch.

What's new:

- **FIFA 22 introduces "HyperMotion Technology," which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements,**

tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay.

- **FIFA 22 introduces a number of changes to the way you manage and develop your club. Players can now be licensed as a youth product at the beginning of their career and change their position throughout their pro life.**
- **Added more fan engagement by allowing others to make your custom shirts, which you can then download in-game.**
- **FIFA Ultimate Team allows you to build and trade your club's squad to create the best team possible.**
- **Introduces an in-game transfer market with the ability to pay 5X, 5Y and 10Y and get-out-of-contract bonuses.**
- **FIFA 22 has a new Pro-Voice mod, with the ability to change the voice of your Pro, as well as their playing style, using gameplay recordings.**
- **Recovery bonuses, which allow you to recover up to three players at a time and play how you know them best.**
- **Creator modes to further immerse yourself in FIFA. You can make your very own stadium with Freekick Stadium Maker, then customise your stadium by making all the plastic seats and other sponsor cuts and stickers.**
